EXAMINER'S AMENDMENT

Claim Numbering

1. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

The amendment of 28 January 2004 presented 4 new claims, numbered 9-12. However, the previous amendment of 20 October 2003 had already presented claims up to claim 23.

Misnumbered claims 9-12 of the amendment of 28 January 2004 have therefore been renumbered 24-27.

Priority

2. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Europe on 19 November 1997. It is noted, however, that applicant has not filed a certified copy of this application as required by 35 U.S.C. 119(b).

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided

by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for the examiner's amendment to the claims was given in a telephone interview with John C. Fox, Reg. No. 24,975 on 13 April 2004.

The application has been amended as follows:

In the claims:

Claims 9-23 have been cancelled.

In the title:

The title has been replaced with "Image projection system with improved contrast having single birefringence-compensating element".

End of examiner's amendment.

Allowable Subject Matter

4. Claims 1, 2, 5, 7, 8, and 24-27 are allowed.
5. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose the image projection system of claim 1, in particular the limitations that there is a single birefringence-compensating element present on that side of the liquid crystalline material having its active rubbing direction and having a tilted optical director profile whose projection in the plane of the polarizers

encloses an angle having a value $0^\circ < \phi \leq 15^\circ$ with the active rubbing direction. Claim 1 is therefore allowed, as are claims 2, 5, 7, 8, and 24-27 which depend on it.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Schechter whose telephone number is (571) 272-2302. The examiner can normally be reached on Monday - Friday, 9:00 - 5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert H. Kim can be reached on (571) 272-2293. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
